PROFILE

Web developer specialised in Drupal development with PHP, jQuery, CSS, HTML strong skills, I've been the main developer at a startup for almost 5 years gaining experience and evolving as developer. Since junior level I became an experience developer in Drupal and I would like to open my field to general PHP development and other languages, more DevOps oriented field with scripting languages, continuous integration, etc.

EXPERIENCE

March 2012 - Present: Drupal developer

iterate. (Dublin - Ireland)

Working with Drupal everyday I touched lots of aspects of the full stack development. From some server configuration (LAMP, Solr, Varnish), local environments set up (Vagrant and Docker), meeting with potential clients to understand the requirements, estimation for proposals, elaborate project plans (Asana, BaseCamp), development (PHP, HTML, CSS, jQuery), deployment (GIT, Docker) and client support (Ticketing systems).
Development of bespoke Drupal modules for clients needs.
Integrations with migrations and REST APIs or other systems.

May 2010 - June 2010: Electronic technician internship

Electrónica Angueira (Galicia - Spain)

Electronic position internship, fixing small electrical and electronic devices, distribution and installation of devices and TV bundles.

EDUCATION

2010 - 2012: Network Computer Systems Administration ~ *BSc*
IES San Clemente – Santiago - Spain

2008 - 2010: Computer and Telecommunication System ~ *BSc*
CIFP Politécnico – Santiago - Spain

2012: Local Area Networks course - *70 hours*
2010: Health and Safety course - basic level - *30 hours*

OTHER

Committee member of the Drupal Ireland Association 2015 - 2017
Drupal Ireland Event organiser for the Dublin meetup.
Car driver's license.
Language - Spanish: Native / Bilingual
Language - Galician: Native / Bilingual
Language - English: Advanced
